## Hair Often Ruined By Careless Washing

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is ordinary Mulsified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub in. It makes an abundance of rich, creamy lather, which cleanses easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft and healthy. Fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Mulsified coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months—Adv.

## Motorman Not Losing Any Time

"I don't think anyone ever suffered more from stomach trouble and bloating than I have. I had to lay off my run more than half the time and could get no help from prescriptions or medicine. One of my friends advised using 'Mary's Wonderful Remedy,' which I found to be the greatest relief ever put on the earth. I have not a day since taking it. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will relieve or money refunded. At all druggists—Adv."

## Why My Baby Sleeps So Well

At ten o'clock I wake him up just enough to get that warm bottle into his chubby hands—and I have to watch him to see that he doesn't slip back asleep over it—and then not a sound out of him except his soft breathing until seven next morning!

Some other babies I have heard of wake up and cry during the night—but not mine, because his little stomach has no trouble with his food.

## El Pasoans Away.

Tom Holliday has gone to Cloudcroft to spend several days. Alfred H. Johnson, city purchasing agent, left Monday for a two week's vacation with relatives in east Texas. This "Powder" (speaking of War's Baby Powder) is composed wholly of active but harmless antiseptics. In the fall of 1915 I graduated at the Starling Medical College, Columbus, Ohio, and in the course of 36 years' practice (49 in Louisiana), I have not found the equal of this mixture in the treatment of diseases of the Stomach and Bowels of Infants and Children. It is almost specific for the little ones. It is safe and soothing, acting like an inside poultice. After careful investigation I am convinced that there is no better remedy for the cure of babies suffering from any form of Stomach and Bowel trouble.

## Travelette

SAN FRANCISCO MOUNTAIN. In climbing from the Painted Desert, which lies at the foot of San Francisco mountain, in Arizona, to the summit of that peak, perhaps 25 miles away, you experience as much change of climate and scenery and pass through as many different zones of life as you would in traveling from the Hudson river to the region of Hudson Bay.

This is due to the fact that altitude has the same effect on climate as latitude. If you climb five hundred feet upward, you have achieved the same change of climate as though you had gone two degrees north. The result is that a mountain top in Arizona twelve thousand feet above sea level, has a climate like that at the edge of the Arctic Circle. Moreover, many of the same plants and some of the same birds that live in the sub-arctic regions are found on top of San Francisco peak—relics of that distant age when most of North America was covered by an ice cap and had an arctic climate.

The desert at the foot of San Francisco peak is one of the driest and hottest places on earth. Great areas of it are without a sprig of vegetation. There are vast beds of brightly colored pebbles and stones in the sun, great barren sand flats, ranges of hills that are stoned bright red and blue with minerals, but show not a touch of living green. The heat is terrific and incessant.

Leaving this region in the morning, you find yourself on the mountain slope in an arid region supporting a low scrubby forest of juniper and mulberry. Two hours later you have entered an entirely different life zone, and are riding through a beautiful open park of yellow pine, which is dense and damp, with heavy underbrush along the streams. Here birds and squirrels abound and you may glimpse deer and bear.

As you continue upward, the timber grows denser in some. You pass through a region of scrubby spruce, such as grows along the Yukon in Alaska, and finally emerge on the forested slopes of the timberline, where the climate is almost arctic, and the snow lies deep in June.

## CIRCLE GLOBE TO ATTEND CONVENTION OF ADCLUBS

There must be something really worth while in the annual convention of the Associated Advertising Clubs of the World, held today at Scott C. White, president of the El Paso Ad Club, for men travel half way around the globe to attend it. Mr. White received word from the headquarters of the advertising clubs in New York city that the president of the Queensland Advertising Men's Association, Brisbane, Australia, had called for a hotel reservation for the world convention of advertising clubs.

Word from the advertising association indicates that Sydney, Australia, is the place where the convention will be held, as well as several other far distant points. Will, without doubt, be represented. Last year two men traveled all the way from Australia to be at the sessions.

One of them was interested especially in community advertising and in addition to the general sessions of the convention, which was held last year in San Francisco, he attended the special meetings for those interested in community advertising such as will be held again this year. He declared that he was fully repaid. The other delegate, a Sydney advertising agent, was equally interested in the time and money the trip required.

## PHONIX OFFICERS FIND NO TRACE TO CREME'S SLAYER

Phoenix, Ariz., Aug. 19.—No trace of the assassin of Harry Creme, a Jew sporting man who was shot here yesterday, has been found by the police, and they are apparently at a total loss for methods or means of tracing him.

Descriptions are so varying as to be more baffling than helpful to the officers. All the 22 Greek suspects rounded up were released after examination.

## PASSENGERS SAY HOT IN ARIZONA

Passengers arriving in El Paso from the Pacific coast Monday declared that little rain had fallen in the region recently. According to one tourist, the thermometer registered 122 degrees at Yuma, Ariz., Sunday afternoon and in Indio, Calif., which is 25 feet below sea level, the mercury reached 116 degrees.

## MAN SLIGHTLY HURT WHEN TRAIN AND CAR COLLIDE

Timothy Kennedy, a watchman, was cut on the left hip, and the front end of his car was damaged when it was demolished about 10 o'clock Monday night when the car was struck by a train on the crossing at Santa Fe and San Jacinto streets. The operator on the street car, G. D. Davenport, evidently did not see the watchman's signal according to the report made at police headquarters. Kennedy was standing on the front end of the car. He was thrown against a pole and the time Kennedy was treated at the emergency hospital at the police station. He was not seriously injured. No one else was hurt.
